Solutions Linux

**Linux & Open Source
Solutions Integrator**

**Yes,
it is for you!**

About us

25 Capeneurs in 2021
we are always looking
for more enthusiasts

4 agencies in France
Lille, Paris, Tours
& Nantes

20 years of know-how
at the clients'
service

Created at the beginning of 2000's in the north of France, Capensis is a company specialized in Linux & Open Source IT engineering.

Since then, only one thing is important to us : providing our clients with the best solutions for their IT infrastructures, while bringing a competitive alternative to closed-source environments.

In 2011, Capensis designed the first Open Source hypervision solution in the world: Canopsis.

Our key to success? A dual core business working in synergy with a passionate team of experts!
